

SAFETY FIRST COMMENTS FORM – RESPONSIVE ACTION

Thank you for your comments and concern for SAFETY.

The company appreciates your willingness to help bring awareness to safety related issues and will make every effort to correct any unsafe condition.

Completed action is denoted by the word “FINAL”.

DATE: 12062017

TOPIC: Monroe- 1. Vehicles are parked too close to the house track by the elevator.

2. CVA locomotive is being parked too close to the fouling point.

3. Chain by Garage door on the elevator is unsecured and could blow around.

EMPLOYEE COMMENTS: Multiple potential safety hazards at Monroe.

RESPONSIVE ACTION: 1. CVA placed a barrier between the tracks and where the employees park to provide sufficient clearance away from the tracks.

2. The locomotive is being parked further to the west so it is further from the fouling point.

3. The chain has been tied up and is secured properly.

FINAL ACTION#####
