MP 175.54 MT 3 = MP 288.28 MT 2 Marysville Sub.

SI-08 - RULES ITEMS

Effective 0900C on November 20, 2017

Delete that part reading;

Rule 31.8.7:

Coal trains are subject to FCS 50 in addition to other TCS restrictions.

Add:

Rule 13.1.4 PTC/ACS Operations:

The Automatic Cab Signal (ACS) system on the lead unit must be cut out upon successful initialization of the Positive Train Control (PTC) system and prior to initiating movement. If the PTC system disengages, is cut out under authority of the train dispatcher, or otherwise fails en-route while leading engine is within PTC/ACS territory, the train must be stopped. After stopping, the ACS system on the lead unit must be cut in prior to any subsequent movement. If the ACS departure test cannot be performed while on energized track, a departure test must be conducted in accordance with Rule 13.1.5 at the train's next forward location where such a test can be performed. If unable to cut in ACS system on the lead unit, the train must comply with Rule 13.3.3.

Application: The "next forward location" is the next terminal or crew change point along route of train where:

1. Non energized track is present - for Engines equipped with the ACS self test feature.
- OR
2. Test loop is present.
